TAC/SCAN™

SIGHT & SOUND SPECTACULAR Asteroid Attack

The TAC/SCAN squadron roars through space, its engines whining and rumbling with every careful turn of the player control knob. Suddenly enemy Annihilators attack with a fury of whizzing rocket fire and Shinglers fire a lethal laser beam. It's a skullful challenge of galactic navigation as the player weaves, left and right, firing missile salvos, dodging enemies and scoring points.

Eye-level Elevation

Heightening player interest and repeat play, TAC/SCAN features two game-play perspectives... top! SCAN features a brand new eye-level perspective. Flying down and a brand new eye-level perspective. Flying directly at the squadron, zooming out of deep space, the adversaries present a whole new dimension in game skill.

Space Tunnel

Sound and visual effects take the player on an

awesome journey through the Space Tunnel in the galaxy during the next round of action. The rapid twisting of the Space Tunnel and the switching sound of player ship acceleration bring realistic space flight excitement on every turn.

Unprecedented New Features

TAC/SCAN gives the player a truly unique, new game play feature. As TAC/SCAN's fighters are depleted, the player can add new ships to his squadron either by pushing the ADD SHIP button or by docking additional space ships which randomly appear on the screen.
